

# Designed for the homeowner!

Land Pride's Patriot® Series  
Rear Discharge Grooming  
Mowers offer features and

benefits that satisfy the most particular users. Our unique tapered rear design does away with chains that tend to clump damp grass and leave it lying in piles. Our wide, even dispersal leaves grass in a fine thin layer directly behind the mower. This is especially beneficial if you are not wanting to blow grass in unwanted areas, like streets or flowerbeds.

- Solid rubber tires
- 1" Wheel spindles with nylon bushings for smooth casting
- Single B-section belt with Kevlar
- High blade tip speed
- 1 1/4" Blade overlap

## GROOMING MOWERS

Floating lower clevises allow the mower to cut evenly over uneven terrain. The clevis allows for easy attachment to the tractor, and can be adjusted to accommodate different tractor sizes.

Designed and built with homeowners in mind, the Patriot is just right for subcompact and compact tractors found on the outskirts of any city. With our tapered rear design discharge area, foreign objects are discharged closer to the ground, plus you can mow close to objects with either side of the mower.

The driveline storage hook keeps the driveline off the ground when not in use.

Available in 3 widths, the Patriot Rear Discharge Grooming Mower fits a wide range of tractors. From one acre to many acres, our high blade tip speed, floating hitch, and efficient discharge will give you the best cut in the neighborhood!
